Rocket Restrictions Fargo 2020

By motion of the Board of Directors, a limit on rocket size at the 2020 Fargo convention will be imposed as follows: The maximum permissible rocket motor size is one-inch ID/three-pound. The maximum permissible size of the rocket heading is 4-inches in any dimension for single shell headings. Multi-break headings may not exceed three-inches in diameter or three breaks. The one-inch internal diameter/3-pound limit on rocket motors WILL apply to girandolas. It WILL NOT apply to drivers on wheels or to tourbillions.
