## Why you should join the PGI

### **The PGI fireworks convention – One week long every August**

Imagine the Olympics of Fireworks. Every year. Thousands of members and their families come to the PGI Convention in a different city the 2nd week in August. There are seminars, workshops, training, fireworks and supplies vending, socializing, and fantastic displays every night.

### **Great deals on fireworks**

Find anything you need at the Convention: thousands of different consumer fireworks, chemicals, fuse, supplies, tools, clothing, and even antique fireworks! Open shooting of Class B and C nightly.

### **The PGI Bulletin – Comes to you five times a year**

The Bulletin is a color journal that keeps you informed about PGI and its events and, it provides you with access to articles on fireworks use and manufacture written by experts.

### **What does membership cost?**

First year membership is \$100, \$70 a year after that. Registration for a whole week of the convention is \$200; less than \$35 a day for that week, this is the best fireworks deal on the planet!

### **How to join:**

Fill out the application and pay by credit card right here at: [www.pgi.org](http://www.pgi.org)

# YOU FIREWORKS?

Learn to build fireworks.  
Create incredible fireworks displays.

## Make your own fireworks.

Learn everything about fireworks design, building, finishing, safety, licensing, even legal storage and transportation. Then shoot them yourself during "open shooting."

## Create professional fireworks displays.

Learn fireworks display safety, design, physical setup, artistry, legalities and hands-on commercial use. Learn about electrical firing and even musical choreography.

# ENJOY

## What you can learn in the PGI

### Fireworks making

Learn to make every kind of fireworks imaginable. During the convention an area is set aside just for you to make your own fireworks. Seminars, workshops, and member experts show you how.

### Fireworks displays

The Display Operators Course teaches the world of commercial fireworks displays. Use what you've learned to help set up our nightly fireworks extravaganzas. Open shooting of Class B and C nightly.

### Legal and regulatory

The PGI's seminars, publications, and experts will teach you every aspect of fireworks legalities and licensing.

### Safety

Safety courses and safe practices are the backbone of the PGI. You'll learn how to make, use, store, and transport fireworks safely both for you and your audience.

### Artistry

Learn the art of fireworks – from artistically designed aerial shells to creating musically choreographed displays that move your audience to tears. You'll see and learn it all in the PGI. Learn more at [www.pgi.org](http://www.pgi.org)
